Diogo Paulos
Full-stack Developer in Portugal, he/him
dpaulos6.com

About

I'm a self-taught full-stack developer and bachelor student from Portugal, currently working at @bomsite. In my free time I also work on @lynqd, @slotbot, @digestify, @wouldyoubot and @rivo.

One thing that I love is coding. I'm passionate about exploring different programming languages and frameworks and I'm always eager to learn something new. Right now, I'm fully immersed in mastering modern web development technologies, so I can take my projects to the next level.

Projects

2024	FishWiki Website at FishWiki	Aquatic Encyclopedia on Discord.
2024	Digestify	Digestify is a general security tools website, like string hashing, key generation, etc.
2024	Website at Slotbot	SlotBot is an economic Discord bot that features competitive PvP spanning across multiple servers.
2024	Website at Would You Bot	The official website for the Would You Discord bot. Using Next14 and TailwindCSS
2024	Website at Rivo	Improving the current Rivo's company website. (Next14 and TailwindCSS)

Side Projects

2024	Nizzy Starter Kit	An SaaS (Service as a Software) template starter kit already set up, that requires bare minimum configuration. For more details, watch Free & Open Source SaaS Template Starter Kit on YouTube.
2024	Invictus App	An application to help a barbers' business manage their clients and appointments.
